

## **RFCL COVID-19 INTERVENTIONS**

Being one amongst the 5 revived defunct fertilizer units in the nation, the state-of-the-art Ramagundam Fertilizers & Chemicals Limited (RFCL) facility is committed to work towards making India self-sufficient i.e., Atma-Nirbhar in fertilizer production. At the outset, despite facing multiple set-backs due to COVID-19 from the past 1 year, RFCL is at this time looking at a larger picture to become a game-changer for the farmers by producing urea, enough to cater to the urea fertilizer requirements of them, in-turn reducing the imports.

The current second wave of COVID-19 pandemic has underlined the significance of being vigilant in terms of health and safety on the whole. As RFCL's employees are putting in their best efforts round the clock to ensure timely, uninterrupted, full-capacity urea supply in-order to meet the demand of the farmers, RFCL is safeguarding its employees and the contract workers with various preventive measures in place.

**Few glimpses from the mass testing drive conducted at RFCL Site Campus**

Driven by the famous quote by Zig Ziglar “you don't build a business, you build people and then people build the business”, apart from just providing 24\*7 medical consultation facilities with an in-house doctor team at the PHC to ensure proper care for anyone who has been affected, RFCL is also working closely with the respective district administrations, helping them keep the employees as well as the surrounding communities safe.

**Shri. V.K. Bangar, General Manager – Projects (I/c) personally administering the COVID-19 Mass Testing Drive along with Police Authorities, Ramagundam Commissionerate**

As a part of the same, Station Officer, NTPC under the jurisdiction of Ramagundam Police Commissionerate along with RFCL Management organized a mass COVID-19 testing-drive at RFCL plant. As most of the workers at RFCL are from the surrounding communities, almost 200 plus local contractual workers were tested for 2 days in the drive at the campus. The mass testing drive was administered by Shri. V.K. Bangar, General Manager-Projects (I/c). All the arrangements were for a hassle-free and smooth process for testing was carried-out. Proper sanitization measures along with social-distancing was followed. Speaking on the same, Shri, V.K. Bangar mentioned that workers who gets tested positive for COVID-19 will be recommended for home isolation on doctors' advice.

**COVID-19 testing being carried-out by following all the necessary precautionary protocols**

RFCL is also trying to activate scaled response towards the management of COVID-19. In the course of the same, most of the RFCL employees got vaccinated at the local government facilities with the help of the local authorities.
